Frequently Asked Questions

When should MCF receive the proposal?

The application must be *postmarked* on or before the deadline.

Who makes the grant award decisions?

MCF engages community members, our board members, donors and staff in our grant review processes. In most cases, a donor, community member or staff member will contact applicants. Committees then discuss the proposals and make grant recommendations. Decisions are made within 8 weeks of the deadline.

When will I know whether my application has been approved or declined?

All MCF's decisions are within 8 weeks of the application deadline. Applicants will generally be notified by the 9th week.

We have an audited financial report. Can we attach this to our application instead of completing the financial information section of the MCF Application Form?

No.

We're a start-up with no financial history. How do we complete the financial section of the MCF Application Form?

Estimate the amount of in-kind support (i.e. donated office space) and volunteer hours your organization has received; include either actual or projected operating budgets for the next year.

I'm not sure which grant program my proposal best fits. Can we apply to more than one MCF grant program during one cycle?

Proposals will be referred to the programs requested by the applicant on the *Application Form* as well as any other programs staff believes likely to consider funding the proposal. If you've received a grant from the *Community Building Grant Program* (including County Funds), the *Maine Expansion Arts Fund* or the *Fund for Maine Land Conservation* within the past 12 months, you must wait one year before applying again to any of these programs. You are still eligible to apply to other MCF grant programs within the 12-month period.

We're applying to MCF's Community Building Grants Program, which generally does not support equipment, capital, operating expenses or endowment campaigns. When do you support these expenses?

MCF supports projects and organizations that first and foremost meet our community building priorities. When an equipment purchase or operating expense is essential to this community building work, we will consider supporting it. When an organization or project is in the start-up phase, operating and capital expenses will be considered. In all cases, we seek evidence of volunteer participation, in-kind donations and a plan for future financial stability.

We're a collaborative of nonprofits seeking support for a joint project. How do we apply?

One member of the collaboration must take fiscal responsibility for receiving and expending the grant. This organization should complete the *Application Form*. Letters from the collaborating organizations should explain the approach and shared responsibilities.

We're a community collaborative applying with another agency serving as our fiscal sponsor. What is required?

If you are not a nonprofit and are applying with a fiscal sponsor, you are required to provide a letter from the fiscal sponsor agreeing to accept funds on behalf of your project and the sponsor's federal IRS 501(c)(3) ruling letter

Community Building Grant Program Guidelines (including the County Funds)

Grant size: up to \$7,500

Application Deadlines: January 15 and May 15 (postmarked)

Guidelines

The Maine Community Foundation's community-building grant program supports a broad spectrum of organizations and projects that strengthen Maine communities. The program seeks project proposals that recognize and build on a community's strengths and assets. To be considered, projects must meet each of the following three criteria:

- Use existing community resources to strengthen community life.
- Strengthen communities' and organizations' ability to meet future challenges.
- Be sustainable or have a lasting impact after MCF grant funding is complete.

Projects must also meet at least one of the following priorities:

- Build collaborative relationships and partnerships to plan, advance and evaluate the project.
- Include the people who will benefit from the project in its planning, implementation and evaluation.
- Develop and strengthen local leadership.

The Foundation encourages projects that are innovative and assume a significant degree of risk in attaining far-reaching goals.

Community-building grants typically do not support ongoing operating expenses, endowments, capital campaigns, camperships, acquisition of capital equipment (any item over \$250 that will be depreciated over time) or cost of repairing equipment.

Eligibility Requirements

- 1) Applicants must be nonprofit, 501(c) (3) federal tax-exempt organizations, public schools, public agencies working for the State of Maine, or Indian tribal governments (and their political subdivisions) recognized by the Department of the Interior **or** have a fiscal sponsor that is a 501(c) (3) organization, public school or public agency.
- 2) Grants cannot be made for lobbying or religious activities.
- 3) Grants cannot pay for program expenses that have been incurred.

All organizations from outside the State of Maine must demonstrate that they are working with a Maine-based group to develop and implement the proposed project.

Applications for grants from the Community Building Grant Program should be submitted to:
